

CASH WHEAT AT HIGH MARK Exchange Sells Thirty Cars for Dollar Nine to Fifteen and Half.

OMAHA MEN MAKE FORTUNE Dealers Are Reported to Have Sold One Million Bushels at a Profit of Twenty-Five Cents a Bushel.

Cash wheat reached \$1.15 1/2 per bushel on the Omaha grain exchange, though the bulk of the sale of thirty cars were made at prices ranging around \$1.08. There were thirty cars offered and they were sold in less than thirty minutes after the gong was sounded. The price on high were but a couple of cents below the Chicago top. There were thirty-eight cars of corn offered and the bulk of it sold at 7 7/8c, with a cent of the Chicago cash price, with an indication of 30 cents being reached before the end of the week.

Above Thursday Close. Chicago wheat opened at \$1.16, 2 to 3 cents above the close Thursday, and worked up to \$1.20, never getting below \$1.14. December touched \$1.23 1/2 for high and worked down to \$1.19 1/2 for low.

During the last ten days May has been the favorite trading option with the Omaha dealers and it still continues, it having more speculative properties than the closer options. In Chicago the May wheat opened at \$1.25 1/2, 5 cents above the close of Thursday, and went as high as \$1.29 1/2 within one-eighth of 1 cent of the record of the last six years. The fluctuation was wide, selling down to \$1.25 1/2, with the close near the high point of the day.

Omaha dealers are said to have sold close to 1,000,000 bushels at around \$1.20, and in no instance did they pay to exceed 20 cents per bushel for the wheat.

Cousins Fighting Cousins in the War Between Europeans

With cousins fighting cousins in the European war, Sigmund Landberg, Omaha music teacher, is being forcefully reminded of the awful consequences of international conflict. He says that, although he is Teuton, and has some relatives in the German army, some of his cousins emigrated to Russia for business reasons, lost their German citizenship by Russian residence, and have now been drafted into the czar's army to fight their native land.

The war is universally popular in Germany, he says. Letters he has just received from sisters and other relatives in Berlin indicate that nothing but ultimate victory for the Kaiser's men is expected there, although the people are prepared for a long war.

"German victories never heard of in America are reported in German papers I have just received," Mr. Landberg says. A consignment of about twenty cases of the Tachibani, a Berlin daily, came in his mail Thursday. They are full of the German side of the great conflict and indicate a more favorable military situation for the fatherland than had been indicated by press dispatches censored in London. After reading the papers, he sent them to be bound for preservation.

MEDELSSOHN CHOIR TO START REHEARSALS SOON

The Medelssohn choir of Omaha, Thomas J. Kelly conductor, will resume rehearsals on Monday evening, September 14, at the army building, Fifteenth and Dodge streets. The executive committee of the choir announces that in order to save time and trouble, new members can apply direct to the conductor at any time by telephoning Harney 367, or by going to his residence on the evenings of Monday or Tuesday, September 7 and 8, which dates Mr. Kelly is reserving for applicants, when they can take the entrance tests and examination for membership. Hitherto membership has been made through the secretary, but inasmuch as the conductor has been thought wiser to adopt the present plan and members will register with the secretary after being accepted. Former members are urged by the committee in charge to be on hand early on September 14 to greet new members and arrange plans for the year.

SHOWERS OVER STATE HELPING FALL PLOWING

While not needed, showers, according to the reports sent into the railroads, were general in Nebraska Thursday evening and night. Agents of the railroads assert that the corn crop of the state is made and that it is close to the normal as compared with former years. However, they express the opinion that the rains will be of great benefit in putting the ground in condition for fall plowing and seeding.

Indications are, according to the railroad men, that the average of fall wheat sown this year will be far in excess of former years.

MOHLER FINDS CHICKENS NUMEROUS IN SAND HILLS

President Mohler of the Union Pacific has returned from the sandhill country, where he went in search of the prairie chicken crop of Nebraska. He went to Northport and from there made detours into the country. He reports the crop up to the normal and hunters not as numerous as in the past. So far as shooting was concerned the president of the Union Pacific was able to kill the daily limit, ten birds per day.

Keep Your Liver Healthily Active, Cleanse Your System Thoroughly. A man in Kentucky just told a friend that Foley Cathartic Tablets were the most wonderful medicine that has ever entered his system. Said he would not be without them. Neither would you, if you had ever tried them for chronic constipation or for an occasional purge. Better for you than calomel. Keep your liver active. Stout people can't find anything to equal them for comfort. All dealers—Advertisement.

Men "Wise Guys," but Women Find Them Out, Says Mrs. Funk

"We'll concede that men are the 'wise guys' in politics, but we women, who are experts where human beings are concerned, are going to learn from them." This was the declaration of Mrs. Antonette Funk, prominent suffragist and attorney for Chicago labor unions, in a speech from the court house steps this noon.

"We don't object to saloons as long as they dispense liquor, but we do object to the influence of the corner saloon in politics. We have a strangle hold on them and we intend to put them down and out of politics."

In speaking of the passage of the Illinois suffrage bill, Mrs. Funk said that the Illinois legislature was no "Sunday school" and that she was convinced that Nebraska was just as much corporation-controlled and boss-ridden as Illinois.

In the midst of her harangue, Mrs. Funk stopped to reprimand two young men who were laughing. "If you don't think what I say is so, come up to the front and tell me so," she said.

Mrs. Herbert Rogers, Mrs. R. W. Connel, Mrs. Charles Sherman and other prominent society women, who had adjourned from a meeting of the Visiting Nurse association to hear the speech, squatted on the court house steps while listening to Mrs. Funk.

Mrs. Funk will address several labor organizations this evening.

Fine Point in the Election Laws Up Before Authorities

Whether the provision of the non-partisan judiciary law, making the filing of petitions, loaded with signatures, a requisite to candidacy for the bench, will be enforced in practical use, is a question now before legal authorities at the court house.

County Judge Crawford, unopposed for a second term, received 11,304 votes at the primary election. T. E. Brady's name was written on three or four ballots. Mr. Brady believes that he is a fully developed candidate for county judge at the coming election and has asked the election commissioner to put his name on the ballot.

According to lawyers, Judge Crawford is not likely to give up his solitary candidacy without a legal row in the event the election commissioner should agree with Mr. Brady.

Stores Will Close at Noon on Labor Day

At least seventy or eighty retail stores in Omaha will close promptly at noon Monday, which is Labor day, and will not open again during the day. These are the stores that are members of the Associated Retailers of Omaha. Most stores not affiliated with the association will also close, but the closing of those affiliated with the association can be definitely announced now.

Eight stores not affiliated with the association have called up association headquarters to know what would be done in regard to closing on Labor day. They announced that they intended to do just as the association members did with regard to closing, although they are not members themselves.

Denver Woman Seeks Her Parents Here

Assistant Postmaster J. I. Woodard is in receipt of a letter from Mrs. Lily Lehmann of Denver, requesting that he assist in a search for her real parents, Mr. and Mrs. Rollins, who were residents of Omaha in 1888. Mrs. Lehmann says she was adopted by her parents, but she only recently discovered that she was an adopted child, hence her search for her real parents.

HANDSOME OFFICERS DO WEST FARNAM SLEUTHING

Because they possess physiques unlike that of the stereotyped policeman and are capable of wearing "candy" clothes, Police Commissioner Kurel has picked officers Joe Dudley and George Allen, two of the handsomest officers on the force, to make up the silk stocking society sleuthing squad.

MISS LOGASA, SAFE FROM WAR ZONE ENTERTAINED

Miss Hannah Logasa, who was in Paris when the war broke out, but escaped to London and managed to get back to America safely, is visiting friends in Omaha a few days, before going to the University of Chicago to take up new literary work there. She was formerly head of a department at the Omaha public library. The library staff gave a luncheon in her honor this noon.

TEACHERS' ASSIGNMENTS TO BE ANNOUNCED MONDAY

Because of the number of teachers held in Europe on account of the war, Superintendent Graf of the Omaha public schools has decided to hold off the assignment of teachers until Monday morning, when the list will be given out at a general teachers' meeting to be held in the high school auditorium.

TOM O'BRIEN ENTERTAINS HUNTERS ON HIS RANCH

A large party of hunters is being entertained by T. J. O'Brien of the Hebard, at his ranch north of Sutherland, in the sandhills. Among the party is Chief of Police Henry W. Dunn, and other Omahans. Ducks and prairie chickens are reported to be plentiful, and the party is having a great time.

Prices of Canned Goods to Soar on Account of War

Canned goods are expected to be among the high priced commodities this winter. Already canned corn is quoted at from 7 1/2 to 10 cents a can; canned peas and canned tomatoes 10 to 12 1/2 cents a can, according to the grade.

All cheese is high. The American cheese is 22 cents a pound and Wisconsin cream is 20 cents. Imported Swiss cheese is off the market in Omaha.

Butterfat has come back on the market with the opening of September, and this is expected to have some little effect on the price of butter.

Good spring lamb are still going up, having gone up a half dollar a hundred in the week.

Oysters, the first of the fall season, are on the market. They are going at 45 cents a quart, solid meat. Pork has advanced a half a dollar a hundred in a week. Back bacon, which has long been looked upon as among the cheapest of meats, has advanced 25 a hundred, or what the consumer was getting for 16 cents a pound is now costing him 18 cents. All cooked meats, such as sausages, hams, etc., have advanced. Cooked corned beef has advanced 5 cents. What was selling at 25 cents, is now costing 30.

Lard is up 50 cents a hundred, making it now 15 cents, strong retail. Raw beef lard has taken a jump. What was selling nine pounds for a dollar is now selling seven pounds for a dollar.

Colorado peaches are selling at 60 and 65 cents a crate. The Washington and Idaho peaches are selling at 70, but they weigh four or five pounds more to a crate than the Colorado.

Hartlett pears are up 25 cents a crate. They are quoted at \$2 for a six-tier box. Tokay grapes are 20 cents a basket.

Sugar remains steady at from twelve to fifteen pounds for a dollar.

Flour that sold a week or two ago at \$1.65 a forty-eight-pound sack, now brings \$1.50.

Dried fruits are all cheaper. Prunes of all grades are down 2 1/2 cents.

Joyriders Have Tires Punctured When They Scoot

A little joy party cost Harry Skelin, a chauffeur of 1599 North Twentieth street, \$75 and cost plus two rear tires on his car, which were punctured by bullets fired by Motorcycle Officers Emery and Holden, when the celebrators endeavored to escape over the bridge to Council Bluffs as they were being conveyed to the police station for speeding at an early hour Friday morning.

There were eight people in the automobile, most of whom live in Iowa. They were caught speeding at Nineteenth and Cummins streets and when hearing the jail attempted to bolt.

The entire party forfeited their bonds when they failed to appear in police court in the morning.

Cummins to Write of Scenic Wonders

John P. Cummins, general advertising agent of the Union Pacific, who has written columns on the scenic features along the line, has gone to the coast, where he will gather data for a pamphlet that will be issued upon his return. From Omaha his itinerary provides for a trip through Yellowstone National park, after which he will go over the Shoshone system to Salt Lake and continue his journey westward.

Prior to leaving for the west, Mr. Cummins was the guest of honor at a quail dinner where a number of railroad men and newspaper reporters gathered.

FARMERS IN WESTERN NEBRASKA PROSPEROUS

Secret Service Agent Patterson of the Union Pacific is in from a trip to North Platte, Neb. In western Nebraska he found the farmers in a most prosperous condition and most of them holding their grain for higher prices.

Mr. Patterson is of the opinion that while the war in Europe will work something of a hardship upon people living in cities and towns, it will mean that the farmers of Nebraska and other western states will reap a great benefit on account of the advance in the prices that they will receive for their products.

LIBRARY CIRCULATION SHOWS A BIG INCREASE

An average increase in circulation of about 35 per cent has existed so far this year at the public library over the corresponding period of 1913. The circulation of books last month was over 21,000.
